COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

It is expected all tarring for this year will be completed this week. Driveways are being done Thursday and Friday.

The Planning Board met again Tuesday night to review the by-laws. The main purpose is to update the original ones with minor changes in the wording where applicable, also to strengthen the by-laws relative to police administration.

There is interest in having a dog control ordinance of some type, especially in the built-up areas of town. Information is being gathered as to what other places have and how effective they are.

Notices are being prepared to send to delinquent taxpayers. Liens will be placed on real estate soon. Warrants will be issued for unpaid personal and poll taxes.

Mrs. Young, Town Clerk, will be on vacation the next two weeks. Mrs. Wheeler will assist in the office during her absence.

Much appreciation is due Miss Bickford for her excellent administration of the classes and attendant responsibilities.

Also many thanks to Dany Kimball for the use again of her beach facilities, and to Earl Davis for the float, and for the cooperation of the Beach Patrol and to Robin Fiske for valuable assistance.

When the drive solicitor calls it should be remembered this is one of the important functions of the Red Cross.

"The Beans of Bethel" as fully as it does.

You will find Eva's family record on pages 129-130 in the book.

The original name of the family was Mac Bean in Scotland. When John Bean came to America in 1631 as a prisoner of war, he allowed his name to be changed to Bean. The full reasons for this will be shown in the book John Mac Bean was in the Scottish Army which was trying to stop the aggression of Oliver Cromwell in the war between Scotland and England in 1651. He was taken prisoner in the Battle of Worcester on Sept. 3, 1651 and shipped to the colonies aboard the ship Sarah and John. It is a very interesting story and one to bring pride to all the family which make up his progeny today.

GEM ASSOCIATION SPONSORING 9th ANNUAL FESTIVAL AT RUMFORD CTR. JULY 10-11-12

The Oxford County Gem and Mineral Association is participating in Maine's Sesquicentennial celebration with its ninth annual Gem and Mineral Festival to be held at the Rumford Center School, Rumford Center, July 10, 11, 12. Located but 100 feet off Route 2 between Rumford and Bethel, the festival will be from 10 a. m. to 5 p. m. Friday and Saturday and from 10 a. m. to 6 p. m. on Sunday.

To be featured as part of Maine's sesquicentennial celebration will be the showing of moon rocks collected on the lunar surface by the Apollo 11 astronauts. There will be slides and commentary.

Also, as a special feature will be the display of Admiral Peary's necklaces of Maine tourmalines set in gold panned from Maine streams.

The Oxford County festival is a mecca for rockhounds throughout the United States and Canada, for geologists are well aware of the rich variety of minerals and gems to be found in this County. Choice specimens of tourmaline, rose quartz, aquamarine, amethyst, smoky quartz, beryl, topaz, and others are found by collectors in this section of the state every year. Last year, that enthusiastic hobbyist who calls himself a rockhound, came to the Rumford Center show from 21 states, three provinces of Canada, and there was a party from New Zealand.

There will be 20 private exhibits featuring specimens found in this section in their natural state, and some cut and fashioned into beautiful stones.

There will also be ten dealers setting up booths to represent a cross section of the United States with native and imported materials in specimens, cut stones, jewelry and novel items.

As in previous years, there will be a Swapper's Corner for good old fashion Yankee trading and yarn swapping.

There will also be catering for the hungry folks and door prizes will be awarded every two hours each day.

Co-chairmen of the event this year are Anthony Morton and Carleton Holt and the dealer chairman is Henry Swan.

INSTALLATION OF METERS EXPLAINED BY WATER DISTRICT OFFICIAL

Michael J. O'Donnell, clerk of the Bethel Water District has announced that the Bethel Water District has started the installation of water meters in conjunction with an order from the Public Utilities Commission in Augusta. O'Donnell states that in all fairness to the consumers it is only just that water rates be charged on the basis of usage. This can best be accomplished by the use of meters which will fairly compute the water used by each customer.

The installation of meters has been started on Main Street in Bethel Village. It is hoped that the more than 300 customers will be all metered within three years. The cost of installation of the meters will be borne by the District. However, under P.U.C. regulations the customer is required to have a suitable location with proper piping available so that the meter can be installed. If it is necessary to make minor changes in the piping system within the building to be metered, the costs of these changes must be borne by the customer.

O'Donnell went on to say that it is the hope of the Trustees of the District that the installation of these meters can be accomplished as smoothly as possible. It is understood that some customers would naturally want to be the last metered while others would want to be one of the first. Financial considerations dictate that all meters can not be installed at the same time, nor in a haphazard fashion. It is for this reason that arbitrary selection of the areas to be metered must be made.

The first increase in the water rates since the early 1950's took effect on July 1, 1970. This will explain the increase in the quarterly water bills which have recently been presented to the customers.

O'Donnell wishes to call to the attention of the District's consumers that the trustees of the Bethel Water District are Ernest Angevine, James Hudson and Michael O'Donnell. The trustees meet at the Town Office on the first Tuesday of each month. Any inquiries regarding any phases of the operation of the Bethel Water District will be considered at the regular meetings and anyone interested in the Water District is invited to attend any meeting.

HISTORICAL SOCIETY TO PUT COPY OF BEAN HISTORY IN LOCAL LIBRARY

The Bethel Historical Society is putting a copy of the recently published book, "The Life and Family of John Bean of Exeter and His Cousins" in the local public library to be used for reference only. This book was given by Bernice Bean, author of the book, in Memory of Eva Marian Bean. "She was a major contributor to the information given in these pages, and in fact without her extensive genealogical research and help the book could not have been completed and complete their high school education. Mr. Ryder then expressed his congratulations to the graduates and awarded the diplomas.

Each of the communities in the district should be proud of these adults who have found the motivation to complete their high school education. Special thanks should also be extended to the Board of Directors for initiating and continuing the program.

The practical effects of a life consecrated to God show the true meaning of eternal values, according to the Lesson Sermon on "Exemption" to be read on Sunday, July 12, in all Christian Science churches.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy, Discoverer and Founder of Christian Science, the following passages refer to the teachings and practice of Christ Jesus:

"For in the list of Christian Science the healing power of Truth and Love. He attached no importance to dead ceremonies. It is the living Christ, the present Truth, which makes Jesus the resurrection and the life to all who follow him in deed."

Services at First Church of Christ Scientist, Main and Youth Streets, Bethel, N. H., begin at 11 a. m. and all are welcome to attend. You are invited to bring your children to our Sunday School held at the same hour.

SUNDAY'S SERMON

OUR WORLD
The modern world is filled with temptations. Society is permissive, indulgent. Much that should not be ignored is permitted as the expression of some "doing their thing."

We, all of us, help to set the standards for the world in which we live. We contribute through participation and, as well, through indifference.

To make a better world, we should make "our thing" the practice of a Christian life. We must reject all that which is contrary to the teachings of God. We must reject false ideas, false ideals, selfish leadership, and the safety of practiced indifference.

We cannot merely go our own way, believing that the rest of the world will pass by as it is racing headlong to destruction and chaos. Whatever forces move the world create a backlash, with undercurrents spreading far and wide.

We must learn to react — and to act.

FROM THE MOUNTAINSIDE

Systematically, Mountaineers, as being developed under what some may consider a human experiment, could evolve or take on these features of the classic human tragedy. However, clever as we are (using our ambiguous cliché mockingly), we are compelled to reject our ironic possibilities in order to stay the way we are or aren't. (Shortly there after we saw them walk down the road waving their arms like madmen.) So we are content at being merry, are we yet thus inspired to be bob, jack, or WE HAVE SOMETHING HERE? Certainly we must assume the surrealist absurd, if not fully developed in his efforts in concentrating on the (or A) human condition or situation. This question thus arises on what is meant by "human condition", which is as easy to write as it is to print.

Here and there we may come across a beneficial experience or experiment, which at that time seems to be no dramatic and well preserved in its existence that we seemingly have all of this at our disposal for future use. Under present social conditions and ethnic laws this may hold true, BUT reality, can we be satisfied with something that would rather not exist at all, much less masquerade as a worthless memory.

Mountaineers, a coffee house, a human experiment, or catastrophe in the Congregational Church basement from 8 a. m. to midnight.

Opening July 13, at eight in the morning, the day's program will include a 10 a. m. seminar in theatrical development; at 1 p. m., music interpretation, an hour of selected albums of folk, rock and classical; at 3 p. m., a natural play performed as a demonstration of the free theatre.

For further program schedules call Mountaineers or see blackboards on lawn, or, much more direct, come in and create anything else.

Members of Mountaineers will be taking an all day fund raising drive Friday the tenth in order to raise enough money for development in its program of natural and fine arts.

WOODSTOCK
Seventh-day Adventist Church
Those receiving awards for perfect attendance in the Junior Primary Division of the Sabbath School were: Keith Hadley, David Eddy, Peter Hurd, Jerry and Brian Verrill, Faye Wilson, Viola Sumner, Stephen Dunham, Jimmy, Jeanne, and Kalvin Mason.

Keith Hadley and David Eddy also received awards for Daily Bible Lesson Study for the quarter.

Many attended Campmeeting in Freeport for the Sabbath Services. Statistics show that the Churches have been growing in the past 10 years. We now have 16 districts with pastors in charge of three to four churches.

New Churches have been purchased or built in Brunswick, Portland, Calais, Jay, Portsmouth, Camden, Lubec, Claremont and West Townsend.

New Church Schools have been completed in Barre and Bennington, Vt.; Manchester, N. H.; and Camden, Maine.

A check was forwarded to Mrs. Danforth in lieu of flowers. Her husband, William, passed away at Togus, Sunday, June 21.

The committee for Aug. 4 are: Adeline Dexter, Iola Forbes and Gene Taylor. The meeting place will be at Mary Moore's at her home on Bridge Street.

Refreshments of delicious and waffles, cookies, and coffee followed the meeting. The Barracks paid the ladies for refreshments.

The Barracks No. 2013 met with Tony Croston at his home in Norway. Following the business meeting the charter was draped in memory of William Danforth who was a member of the Bethel Barracks.
